"The Waterfall Building"

In Isola Del Liri, 300 meters from the marvelous waterfall of the city of water and music, we are selling a characteristic sky-earth building.

The property for sale is on three levels, it was built with characteristic stones of the time and it needs to be completely restored.

The building having an independent entrance lends itself well both as a home and as an investment for short-term rentals or B&Bs.

The building of about 120 square meters has a very beautiful stone door as well as a small balcony with hand-crafted finishes that make this property with a unique taste very interesting.
